

FAMILY SUPPORT · TEST 1

Learning with confidence

A practical guide for parents and learning supporters

— Family learning guide for the first test —

DAVID · 6. KLASSE · KANTON ZUG

For families of children in Grade 6

English · key German exam terms retained

1. The goal

Short and regular

Brief, repeated sessions work better than a long memorisation session. The learner should explain, compare, label and return to mistakes after a delay.

What matters for the first test

- Overview of five world religions: names, symbols and broad geographical distribution.
- Explain Monotheismus and Polytheismus clearly.
- Compare Christianity, Islam and Judaism in detail.
- Retell key stages in the lives of Jesus and Mohammed.
- Recognise important features of a Kirche, Moschee and Synagoge.
- Distinguish historical statements from faith statements respectfully.

The adult's role

- Ask questions instead of giving long explanations.
- Correct only one mistaken idea at a time.
- Ask the learner to repeat the improved answer in their own words.
- Finish with a visible success.

2. The 15-minute routine

Minutes	Activity	Example
0–3	Recall without notes	Tell me everything you remember about Islam.
3–7	Clarify one study card	How is a Kirche different from a Synagoge?
7–12	App or oral questions	Answer five to eight short questions.
12–14	Repair one mistake	Turn the correction into a memory sentence.
14–15	Record a success	Today I was able to ...

Useful follow-up questions

- How do you recognise that?
- What is similar and what is different?
- Which three terms belong together?
- Is that a historical statement or a faith statement?
- Can you explain it in two sentences?
- Which German term will you need in the test?

Memory line

Kirche - Bibel - Jesus · Moschee - Koran - Mohammed · Synagoge - Tora - Mose

3. Five-day plan

Day	Focus	Quick check
1	Five religions, symbols, map, mono/poly	Complete a comparison table without help.
2	Christianity, Jesus and the church	Retell four stages and label four features.
3	Islam, Mohammed and the mosque	Retell four stages and explain the five pillars.
4	Judaism and comparison	Give three similarities and three differences.
5	Practice test	Repeat mistakes only, then take a short app quiz.

How to correct constructively

1. Begin by naming what is already correct.
2. Clarify one point only.
3. Ask the learner to give the whole answer again.
4. Ask the same question later that day or the next day.

When motivation is low

- Start with three easy questions.
- Alternate speaking, drawing, matching and app practice.
- Agree on one concrete target, such as ten questions.
- Praise progress and persistence, not only correct answers.

4. Talking about religion sensitively

Respectful language

Religious traditions are diverse. Tables, maps and symbols are useful study aids, but they never describe every person or community completely.

Helpful sentence starters

- Christians believe that ...
- According to Islamic tradition ...
- There are different Jewish approaches to ...
- Historically, we can say ...
- People may answer this question in different ways.

Privacy and the learning platform

After the learner's app is connected to the family dashboard, the platform stores the app, subject, topic, result, points and time. It does not store written answers, photos, school name or address. Future subjects can use the same family profile.
